The account must charge the bond for the amount of liability incurred on each withdrawal on determination of tax and, credit the bond for each payment of tax made with a return and for authorized credits taken on a return. If the balance of the bond account reaches zero, the proprietor may no longer defer tax payments for taxable withdrawals. Where the bond is for less than the maximum penal sum and has been allocated among two or more plants, the proprietor must maintain an account at each plant for that part of the penal sum allocated to each plant.

§ 19.235 Deferred payment return periods—quarterly and semimonthly.

The following additional rules apply to the quarterly return period procedure under this section:

(1) A taxpayer with multiple locations must combine the distilled spirits tax liability for all locations to determine eligibility for the quarterly return procedure;

(2) A taxpayer that has both domestic operations and import transactions must combine the distilled spirits tax liability on the domestic operations and the imports to determine eligibility for the quarterly return procedure;
